MARINE COVERS

LANDFILL WELLHEAD PUMP COVERS

Our Insulated Landfill Wellhead Pump Covers were specifically made to reduce the chances of wellhead pumps and other above-ground GCCS components freezing in winter. A high-quality black vinyl outer layer that absorbs sunlight and an insulated inner layer that retains heat work together to keep gas collection system components warm and dry, and have been field-proven to increase the ambient air temperature within the cover by up to 30 degrees. Our covers fit both single and dual gas extraction systems.

CONTRACT SEWING

With teamwork to accomplish today's tasks and creativity to achieve your final product - we can assist with new designs and prototypes. Since 1968 we have specialized in products for the Lawn and Garden industry and with years of experience we will work to provide the best possible product for you.

BELLOWS & CURTAINS FOR LIFT TABLES

Designed to be compatible with each application and serves as an integral part of protecting valuable equipment - A maintenance and manufacturing priority in today's clean efficient environments. **Sewn-strong** protection for Lift Tables, Dock Lifts, and Conveyor applications

PROTECTIVE ROBOT & EQUIPMENT COVERS

For long lasting usability and easier maintenance of the robot or moving equipment.
From freezers to high heat environments, our Protective Covers and Suits are designed to hold up to daily use and withstand extreme environments.

WAY COVERS & BELLOWS

Sewn bellows and way covers are constructed to work in vertical, horizontal, and angular positions. Bellows are designed to compress and expand with the movement of the machine. Designed and constructed from a wide variety of materials, available with options for protection in extreme environments.

FILTER BAGS

Filter and dust collection is a maintenance priority in work environments. Our bags and sleeves are designed and manufactured to meet dust collection and filtration requirements. We specialize in new equipment applications and custom designs.

SECURITY, BANK & TRANSPORT BAGS

The first choice for Security and Bank Bag needs. Each bag is crafted with special attention to quality and detail. For your Security and Bank Bags needs, or a new design, we have the right bag for you.

MARINE COVERS

Manufactured with high quality marine grade fabrics for long lasting wear. Custom Faberkin's experienced designers and team of knowledgeable craftsmen take your product one step up to make the best marine cover available.

Established in 1968 to serve Wisconsin area industries with industrial sewing requirements, Custom Faberkin has developed into a worldwide supplier of quality-sewn products.

Located in Fond du Lac, Wisconsin, Custom Faberkin is continually working with new and existing customers, developing and producing products used throughout the world.

Custom Faberkin combines a formula of quality fabrics, dedicated stitchers and engineers, and enthusiastic customer service personnel to create a fresh and positive approach to each project.
